“ *My little sister oh how i am going to miss you. We had made so many memories together over the years . We had good times and bad but we were always there for each other thru it all ! If i get to choose a sister in another life i would definitely choose you again without hesitation . I didn't want you to leave this world but i watched you suffer for too long and i came to relize how selfish i was wanting you to stay considering all you were going thru over the past 8 years or so...so rest easy now sis god will heal all that you suffered from...rest in peace*
