“ *Doris was such a joy to care for. She would always hold my hand and give me a smile that illuminated the room. I think at times she was there for staff as much as we were there for her. I had so much fun the day we took her to the Mexican restaurant. May God bless the family and give them strength. Always carry her memories with the zest for life that she had.*

“ *I remember coming to your house after school almost everyday and listening to you and Kenny talk about 1000 different things that would make me laugh so much. You were my only mammaw I had and I love you so much. I'm jealous you get to see papaw again. I miss you both and will always remember how great you were.*

“ *Bonnie and family of Doris: Your mother was a joy to care for! All of the Hillspring staff loved her like family. She had a beautiful smile and contagious laugh. We're so blessed to have crossed paths with her. I will miss her dearly. You and your loved ones are in my prayers. God Bless You!*

“ *I remember visiting at Doris' house when I was a child (probably in the mid-to-late 60's). there on Crawford Street. Some of the younger children and myself sat on the front porch and down the steps, playing with our baby dolls.
I remember Doris being a very sweet lady. Kind spirited, and I sensed that she loved the Lord.
May you, the family, dwell on the good memories, that you had down thru the years! And knowing that she is in the presence of her Lord. May these things bring you peace in the loss of your Mother.*

Sincerely,

Betty Sue McIntosh, daughter of (Mary Katherine South-McIntosh)

“ I worked at Hillspring and i will miss doris so much. She was always so funny and loving. She would always tell me to get back to work, One day, doris and i was talking about cooking ham and beans. She said that she could make the best ham and beans around. But none of her daughters could make beans or cook like she could cook. She always had a quick word with a laugh and a smile with a hug. May she rest in peace and god bless her family in this time of need.
