“ When I was only 20 years old I moved next door to Fay. She was one of the greatest mentors in my life as far as being my desire to become just like her. I've fallen very short of that but I can tell you this she's definitely enjoying her eternal existence because she was one of the most loving forgiving giving human beings that I have encountered in this world I did not know she passed and I regret not being able to be there for her memorial. I just want you to know that she blessed my life with love and understanding and she endured my presence and she never gave up on me and she is part of who I am today and I'm very grateful for that. “ I have too many memories to pick just one but I will always remember how she lit up a room when she entered. She was one of my best friends and I feel good knowing she is in heaven watching over me. I love you Faye!
