“ *Glenna was a person I met when I was young and had a paper route. she was always a great lady every time I had the chance to talk to her, later in life my mother worked for her and there was never a negative word ever said about Glenna. We only lived a couple of blocks away from Glenna and my mom would always leave with a smile and come back from Glenna's with a smile. that always seemed to stick with me. there must have been a lot of good memories there!*

“Grandma Blake” was such a wonderful person. She was always ready and willing to be involved with her grandchildren's education and school activities. She was a great person with whom to work. I had both of her grandchildren in class at Laura Farrell School.
