“ *I recall my aunt Nancy had many interests, ceramics, knitting, collecting articles of historic Middletown and tracing our family history.*

In the past yr, I was able to copy many of her materials and I believe she kept every photograph and greeting card, she ever received. She will be missed.

Rest In Peace.

I'm grateful to have met Nancy and spend time with her over the past 4 years. I'm lucky to have known her. Words cannot express how much she has meant to me. She was funny and stubborn, and I adored and loved her very much. She would always say she wouldn't know what to do without me, and I would say the same back. Nancy, her sister Julia and I were the three musketeers together. I miss her...

*I remember many cards, letters and presents.
We remember visits and traveling to near & not so near historical sites and museums.
Her interests included reading, history and family genealogy.
We all are fortunate that she was able to relocate near our families during her retirement.*

I remember Nancy French braiding my hair sitting on the side porch at the farm. I remember her laughs, her smiles and her questioning raised eye brows and furrowed brow. I remember one summer We were all at the farm and it was a sunny day, her children were there and I could see and sense her love for everyone. Nancy always remembered birthdays and holidays sharing her time, talents and treasures with my family. I'm sorry your story ended, and I'll always appreciate your kindnesses.

Nancy was my friend from first grade on... Along with Caro Weikel Hoskins. Even though Nancy and I had moved on from Ohio. I will miss her.
