“ Raymond always found a way to get a smile out of someone. I loved that. He loved wood working and created a wishing well for our wedding as a gift. Definitely will be missed. Thank you for all the happy memories my friend.

“ I have been a friend of the Hurley family for many years. One of the memories I have of Raymond involves helping Raymond and his brother Darrell move a refrigerator down from a second floor apartment , Raymond started down the stairs first carrying the refrigerator and Darrell and I were coming down last. We made it down only a few steps before we lost control and the refrigerator slid down the stairs out of control and slammed into the wall at the base of the steps. I didn't see Raymond and thought for sure he was crushed by the weight of the refrigerator, it all happened in seconds, we were all in shock including his mother, who was yelling Raymond trying to get a response. Then before we had a chance to even move Raymond popped back through the door. I couldn't understand how it was humanly possible for anyone to move that fast after falling down a flight of stairs to be able to them jump out the door to the left before the refrigerator slammed into the wall. I still don't know how he did it. Raymond was a strong and very athletic young man, always very friendly and kind to everyone. I give my sincere condolences to Darrel and Peggy.
