“ Ginny was sent by God at a time when my children needed someone special in their lives. Little did I know then, how she would impact our lives and hold such a special place in our hearts. She created memories for my children that they will never forget. Our lives were impacted in such a way by her, that we would not be the people that we are today. She will always hold a special place in our hearts. Our love and prayers go out to all the Johnson family as you journey through this time of loss.
